ZIMBRO

Zimbro as brand from MHespanhol appears as a prestigious and challenging project that marks a new phase of the company. From the old vineyards of Quinta do Zimbro - state established since 1875 - our aim is to restore the property, taking from the land high quality grapes, while protecting the ecosystem and vitality of the farm.

ZIMBRO WINES

The first products launching the market were represented by two reds and two whites. Our wines represent high quality and affordable wines. With selected grapes, extended maceration and controlled temperature. Their profile is rich in fruit and aromas. Balanced with a complex structure, Zimbro wines potentiate Douro acidity combining with smooth notes of vanilla, spice and cocoa on the reds and citrine profile with tropical notes on the whites. Our red wines got recognition among international competitions and very appreciated by our consumers.

ZIMBRO - NEW COLLECTION

Our strategic planning is to build up the brand coherently taking the first communication line - clean and modern - but adding some classic element. The objective is to up-scale the brand while making easy and not pretentious to pick. Clean, simple and classic.
